Dalla cucina alla tavola Abimis x Espai Rö

BY REDACCIÓN. PHOTOS: IRIS HUMM 07.03.18

Like 0

Tweet

Until March 21st, the architecture studio and showroom of design furniture Espai Rö exposes "Dalla cucina alla tavola" ("From the kitchen to the table"), an exhibition dedicated to design and gastronomy.

For the occasion, Espai Rö has selected some objects and pieces of furniture representative of their personal view on that universe, among which the *Ego* kitchen of the Italian firm Abimis stands out. Designed by Alberto Torsello, *Ego* translates high quality and technology from professional stainless steel kitchens for hotels and restaurants to the domestic sphere. Some characteristics of *Ego* are the absence of joints, the rounded profiles, the resistance to shocks, the orbital polish that reduces the visibility of scratches and fingerprints, and the hinges welded and hidden from view.

Ego kitchen, by Abimis

But other creations also seduce the refined and design-conscious visitors: the Carlo Scarpa (1977) and Vico Magistretti (1986) cutlery for Cleto Munari, the contributions of John Pawson (2005) and Vincent Van Duysen (2004) to the *When Objects Work* collection, the *Hommage* sideboard of the Swiss house Röthlisberger Kollektion designed by Atelier Oï (2012), the *Libreria Pensile* of A. & PG Castiglioni (1957) for the Danish publisher Karakter-Copenhagen, and up to a total of 41 pieces, from brands such as Mingardo, PP Møbler, Davide Groppi, Moroso and Venini.

During the inauguration, which took place on December, the food designer Pepi de Boissieu devised a gourmand experience based on the concept "ode to the sea". A mountain of seaweed spaghetti was prepared on the Abimis Island and each guest was able to serve, directly from the sink faucet, a glass of Orange, a natural orange wine that results from the pressing process of the white grape with its own skin. And under the light of the Moon lamp by Davide Groppi, a seabed formed by sponges of sponge cake ended the journey.

«Кухни outdoor»

22/02/2018

17

0

Тенденции в мире современной архитектуры и дизайна интерьера все чаще рассматривают outdoor пространство, как естественное продолжение внутренних помещений: большие окна от пола до потолка, выходящие во двор или сад, тщательно оформленные террасы с единым и барьерным напольным покрытием.

Следовательно, мода приходит и на открытые кухни, а не просто на площадки для барбекю.

Abimis предлагает свое решение кухонного пространства, когда приготовление происходит «внутри» помещения, а прием пищи и общение «на улице», при этом граница между пространствами весьма условна.

COCINAS ALEGRES Y PRÁCTICAS

En pocos centímetros

Las series monobloc integradas en una estructura con puertas son una opción ideal para disfrutar de un equipamiento completo en el mínimo espacio y con la máxima funcionalidad. Los fabricantes desarrollan propuestas discretas y funcionales que se adaptan a todos los estilos. Módulos de almacenamiento, electrodomésticos, encimera de trabajo, fregadero y grifería se esconden tras unos frentes que armonizan con el resto del mobiliario y tienen la apariencia de un armario convencional.

"Ego Luidia" de ABIMIS. www.abimis.com

¿En qué consisten?

Basta un sencillo gesto y la cocina se presenta ante nosotros como un centro operativo perfectamente equipado. Tras su uso, el orden y la limpieza también se restablecen de forma rápida y eficaz gracias a las diferentes opciones de puertas: correderas, escamoteables o batientes. Otra posibilidad a tener en cuenta son las cocinas compactas vistas, concebidas para equipar por

completo o pequeños espacios sin apenas realizar obras. Un solo bloque aporta soluciones varias para apartamentos, lofts, oficinas o viviendas tipo estudio con un equipamiento idóneo en el menor espacio posible. La mayoría de los modelos se suministran con los electrodomésticos incorporados, aunque existe la posibilidad de adquirir únicamente el mueble.

ABIMIS

CUCINA PER PASSIONE

The soul of Abimis is Prisma, a company that for over thirty years has brought the Made in Italy quality into the world of professional kitchens. Kitchens designed, designed, manufactured and installed with world-recognized capabilities, and made Prisma the privileged partner of large corporations and international design studios, not just in the terrestrial but also naval sector. With Abimis, Prisma brings the high quality of professional kitchens even in home areas.

Abimis proposes the kitchen in its essence, starting from the act of cooking, by its function and not by its aesthetic form. The idea comes from the collaboration of the company with a designer, a chef and an engineer. Everyone has brought to Abimis their expertise and expertise: the chef has defined the ideal spaces for those who have to cook, the designer has treated them aesthetically, the engineer has optimized her ergonomics, the company has managed to produce an exclusive and unique kitchen.

Available from: www.abimis.com

NEW MIRROR-FINISH DESIGN

Being on many foodies' wish-list, dreaming of enjoying at home an experience as in a restaurant, professional kitchens require less rigorous styling when fitted in domestic environments. Their cold functionality must apply for more elegant shapes and instead, it is with the idea of merging practicality of use and attention to detail that Abimis has developed its Ego custom-made kitchen model in partnership with the architect Alberto Torsatti.

The composition of Ego is entirely in AISI 304 stainless steel but its squared silhouettes, which are typical of large professional restaurant kitchens, have been "sobered" by the bevelled doors fully integrated into the structure, the by hand orbitally polished finish and the rounded handles.

Indeed, these elements make Ego the ideal solution for residential settings and starting from the Milan Design Week 2007, feature new and sophisticated variants offering even more versatile combinations.

The AISI 304 stainless steel finish is now also available in the polished version: the blocks making up the kitchen, which are designed and built to measure according to each individual design, can be distinguished by a "matte" finish, which is equally elegant and capable of lending the kitchen the appearance of a precious monolith. The new finish demonstrates once again the focus placed by Abimis on craftsmanship: a matter of fact; it is achieved entirely by hand, by means of treatments broken down into several steps.

From the latest finishes introduced, which are available from Milan Design Week, the blocks of the blocks, which is never standard. Through the handle details, Ego is thus a model whose components can be worked out according to individual requirements, resulting in timeless, ergonomic and also fascinating furnishings: the perfect way to experience the thrills of a professional kitchen in your own home.

5 Thanks to the increasing availability of multifunctional appliances, the traditional working triangle has become less important. Consider arranging compact workstation areas including a collection of countertop food-preparation gadgets, and a bank of built-in appliances with user-friendly fridge drawers. 'Create a feature of these areas by mixing up different cabinet styles, including inset units,' says Steve Fury, design director at Trend Transformations (0808 149 5465; trend-transformations.co.uk).

Sutton H Line kitchen in Scots Grey, Portland oak and Chalkwood, from £7,500 for a complete design. Masterclass Kitchens. (01443 449 499; masterclasskitchens.co.uk)

Bespoke Ego kitchen in AISI 304 steel by Alberto Torsello, around €30,000 (approx. £26,400), Abimis. (+39 0422 8021; abimis.com)

6 The desire to avoid visual and physical obstructions in an open-plan space has made the **hidden extractor** a must-have. 'There has been a demand for flush-fitted ceiling-mounted, worktop-based and wire-hung extractors,' explains Fiona Barker-Scott, brand manager at Falmec (01206 849 900; falmec.co.uk). 'An extractor with a front panel that can be replaced with the same material as the worksurface and/or splashback is another popular innovation.'

ABIMIS : LA CUISINE EN ACIER OSE LA COULEUR

Une cuisine haute couture

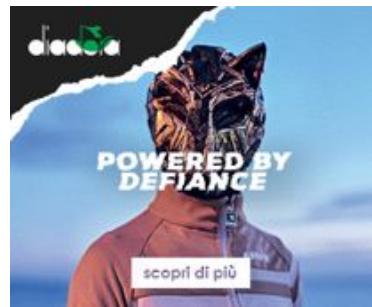

COUP DE CŒUR. LA ROLLS-ROYCE DES CUISINES EN ACIER JOUE LA CARTE DE LA PERSONNALISATION ET SE DÉCLINE EN ROUGE, JAUNE, NOIR OU BLANC POUR S'ADAPTER À TOUS LES STYLES.

L'entreprise italienne est réputée pour ses cuisines professionnelles en acier dédiées au grand public. Si son modèle phare en acier brut séduit les puristes du style industriel, le fabricant n'hésite pas à enrichir la palette des finitions pour s'adapter à tous les goûts. Concevoir une cuisine Abimis, c'est comme réaliser une robe haute couture. Vous pouvez imaginer la forme, la couleur, la matière pour la rendre unique. Ainsi l'acier se pare de couleurs : jaune, rouge, noir, blanc... et peut s'harmoniser avec un plan de travail et des façades en pierre naturelle, bois ou autres matériaux, pour rehausser son design minimaliste. Faites votre choix.

Une cuisine sur mesure

Sur mesure, la cuisine mise sur un large îlot central personnalisable qui peut accueillir au choix tous les postes essentiels de la cuisine : la conservation (tiroirs réfrigérants), la préparation (plan de travail réalisé d'un seul tenant), la cuisson (plaques de cuisson à induction), et la zone de lavage. Modèle « Ego », prix sur devis, **Abimis** (abimis.com (<http://abimis.com>)) by **Prisma Italia** (prismaitalia.com (<http://prismaitalia.com>)).

LIVING ([HTTPS://WWW.LUXLIFE.RS/LIVING](https://WWW.LUXLIFE.RS/LIVING)) – KUHINJA ([HTTPS://WWW.LUXLIFE.RS/LIVING/KUHINJA](https://WWW.LUXLIFE.RS/LIVING/KUHINJA))
ABIMIS KUHINJE ZA VAŠE EKSTERIJERE

Trendovi u savremenoj arhitekturi i dizajnu enterijera sve više uključuju spoljašne sredine kao prirodno proširenje enterijera: veliki prozori od poda do plafona koji gledaju na dvorišta, bašte te pažljivo uređene terase, konzistentni podovi slamaju arhitektonске barijere ...

Otuda, modni povratak kuhinje na otvorenom, ne samo kao jednostavnog mesta za roštiljanje, već i kao glavnog veoma dobro opremljenog objekta, dizajniranog tako da njegovi vlasnici uživaju u prednostima otvorenog prostora u društvu svojih gostiju, dok pripremaju jela.

Italijanski brend Abimis poslednjih nekoliko godina prati ovaj trend, koji je službeno postao sastavni deo kataloga proizvoda povodom sajma Salone del Mobile 2018.

Specifične karakteristike filozofije brenda ostaju nepromenjene u Abimis otvorenim kuhinjama, pre svega sa preovlađujućom upotrebatom nerđajućeg čelika AISI 316, vredne "super legure" otporne na vodu, iznenadne temperaturne promene, a preporučljive su za upotrebu u oblastima gde je atmosfera dodatno obogaćena solju i hlorom.

TAGHeuer
SWISS AVANT-GARDE SINCE 1850

Abimis kuhinje za vaše eksterijere – Lux Life luksuzni portal: Moda, Stil, Trendovi, Kolekcije 2018...

01/03/18 09:48

Zaista, ova kuhinja na otvorenom može biti prilagođena svakom detalju, počevši od kompozicije i dodatne opreme, do visine i dubine radne ploče i ugradnih postolja, ili vrste dodatnih kućnih aparata kao što su gril, ploče za kuvanje, friteze, itd.

Završni detalji takođe mogu biti u raznovrsnim bojama i drugim materijalima, kako prirodnim tako i ne-treiranim, kako bi se garantovala sigurnost, izdržljivost i otpornost, čak i kada su podložni agresivnim efektima lošeg vremena.

Profesionalnost i higijena završavaju ambiciozni projekat: kuhinje Abimis su dizajnirane kao otporne na zadržavanje bakterija i lako se čiste. Vrata i fioke na izvlačenje omogućavaju čuvanje posuda neoštećenim, a u nekim slučajevima mogu se dodati i frižideri ili drugi elementi.

Bilo da imate divan bazen ili terasu, Abimis kuhinje mogu opremiti gotovo sve prostore kompaktnim kuhinjskim blokovima ili većim višenamenskim radnim površinama za roštilj, snack, bife ili obrok s više gangova u posebnim prilikama... i sve to na otvorenom.

KÖK
Originellt och lyxigt

Originellt, lyxigt och idéstarkt

Foto: Matteo Cicconi

Här ser vi Ego i raffinerat svart utmed en vägg. Abimis kök, skapat i samarbete med arkitekten Alberto Torsello, har de kvadratiska formerna med avrundade hörn, helt integrerade dörrar och polerad toppskiva. Fräsch men också tuft. Ego kan även fås i en intensiv röd färg eller som här i chockrosa. Foto: Aeneas.

Uno Forma tidlös kök i S-serien är en kombination av nordisk design och shakertraditionen. Det är en monokrom lyx i dämpade färger och rena linjer. Det luftiga köket har enkla handtag och bänkskiva i natursten. En dekorativ harmoni tillförs med kramar samt ljusramp och diskho i borstad mässing. Foto: Uno Forma.

Originellt, lyxigt och idéstarkt

Qian Jiang fick priset Formex Nova 2017 för bland annat sin enkla, rena ringklocka tillika ölöppnare. Kanske något att pingla i när maten är klar.

Här har Abimis rostfria kök Ego skräddarsyts utmed en vägg för en kund i Udine i Italien. Allt är lätt att nå och sockeln är praktiskt inskjuten. Ytorna är polerade, de kvadratiska formerna har avfasade hörn och integrerade dörrar. Även handtagen följer den avrundade formen. Ego finns också som köksö och är designat i samarbete med arkitekten Alberto Torsello. FOTO ABIMIS

Officine Gullo kallar detta projekt Pigeon Blue, inspirerat av tidigare epoker med tillägg av moderna designelement. Det är ett skräddarsytt, välkomnande kök med en konsekvent känsla, installerat i Florida. Ramverket är i blåemaljerat, tjockt stål med detaljer i kromad mässing. Arbetsytan i borstat stål och vissa dörrar är i teak. Det finns flera kokmöjligheter, ugnar och till vänster en pizzaugn. FOTO OFFICINE GULLO

ABIMIS KUHINJE - LEPOTA SE KRIJE U DETALJIMA

Po vašem mišljenju, da li kuvar mora da se prilagodi kuhinji u kojoj radi, ili obrnuto?

Abimis trend svaki svoj projekat otpočinje ovim pitanjem, jer sve počinje od kuvara, koji mora biti u centru pažnje prilikom kreiranja svake kuhinje. Svaka kuhinja u njihovoj izvedbi je samim tim unikatna i dobro artikulisana, a kao prostor je besprekorno skrojena prateći ukus i potrebe svakog kuvara. Kuhinje Abimis Brenda, uvek su pravljene po meri, maksimalno koristeći potencijal prostora u kom se nalaze.

Od dimenzija i oblika, pa sve radnih površina, vrata na ormarićima i završnih detalja, kuhinje u režiji i viziji Abimis Brenda su poput Lego kockica, jer deo po deo, onda kada se posmatraju kao okruženje i dodatak jednom kuvaru, a ne kao običan predmet ili komad nameštaja, one poprimaju formu u svakom svom detalju, nikada nisu iste i uvek nude najbolje moguće performanse.

RASVETA • NAMEŠTAJ • DEKORACIJA

Abimis kuhinje – lepota se krije u detaljima – Moj Enterijer – Kupatila, Nameštaj, Kuhinje, Garniture...

29/03/18 09:42

Jedini zajednički element svih Abimis kuhinja, o bilo kojoj formi, obliku, boji, dimenzijsama ili modelu da se radi, jeste AISI 304 nerđajući čelik, koji je po svojim svojstvima biološki neutralan, veoma otporan i održiv, jer se može u potpunosti reciklirati, kada jednom završi svoj radni vek.

Ipak, Abimis kuhinje nisu unikatne samo zbog činjenice da se prave po meri, poput odela koje najbolje pristaje, već i zbog činjenice da ih prati obiman portfolio specifičnih tehničkih karakteristika, koje potiču iz profesionalnog sveta, odnosno restorana i sveta keteringa. Ovaj brend je uspeo da sve te profesionalne osobine spakuje u jedan paket i ponudi ih privatnim domovima, u kojima svako od nas može postati profesionalni kuvar.

Uz Abimis kuhinje, priprema svakog obroka, pa čak i onog najkomplikovanijeg, može se obaviti sa lakoćom, jer su vam zahvaljujući ovom brendu i svim njihovim neverovatnim vizijama, sve potrepštine na dohvat ruke, spremno vas očekujući da ih upotrebite kako biste kreirali magiju.

ML PICK

IRON CHEF For 35 years, Prisma has been crafting high-end commercial kitchens for chefs, caterers and restaurants all over the world. Now, through its sister company Abimis, these Italian-made professional-grade storage and cooking units can be brought home to the Rockies. Using AISI 304 steel—a biologically neutral metal that's super-hygienic, easy to clean, resistant to corrosion, and can withstand temperatures up to 930 degrees—the Abimis team of architects design prep and storage spaces, refrigerators and stovetops in Italy, and then ship the parts to the U.S., where the tailor-made kitchen is assembled, seamlessly welded and installed. Customizable options include heated drawers for storing dishes before plating a meal and refrigerated garbage bins to neutralize odors, so you can cook like a pro in the comfort of your mountain home. *Pricing upon request; abimis.com.* □

Why We Love Kitchens

29/03/18 09:41

Photo by Eleanor Williamson

My grandmother's kitchen was a beehive of activity—part sewing room, art studio and bakery. She worked on multiple projects simultaneously: carving a big hunk of clay on a sideboard by the window into a sculpture, cutting a dress pattern pinned to fabric on the table, making a pot of coffee on the stove and proofing bread on the kitchen counter.

In the kitchen, all five senses are engaged as we taste recipes, knead dough, hear the timer, smell cookies in the oven and see the beautiful results of our efforts when we plate a meal. Kitchens are creative labs for cooking and entertaining, and they often anchor an open floor plan that flows into living and dining spaces. Kitchens can be tailored to a cook—think about having a custom suit made—like [this bespoke kitchen by Abimis](#), designed in Italy and installed in your mountain home.

Why We Love Kitchens

29/03/18 09:41

Kitchens serve as the hearth and often the heart of mountain homes, so in this issue we share kitchens in all shapes and sizes. In our roundup of **beautiful mountain kitchens** we showcase designs that take in the views, provide welcoming space for guests, and accommodate a cook's ambitions. Kitchens can be cozy, with **built-in banquettes**, or spacious with islands "the size of real islands" (like the one in **this home cook's kitchen**).

Today's cooks probably won't have a pot of coffee on the stove like my grandmother—they're more likely to use a French press, espresso maker or a bean-to-brew machine. But one thing is for sure; kitchens are the warmest rooms in the home, the famously favorite gathering space for friends and family, for conversation, drinks and good things to eat.

Bon appétit!

Tędy po trendy

Jakie są najnowsze trendy w wyposażeniu kuchni z całą pewnością będzie wiadomo dopiero po mediolańskich targach EuroCucina, ale już dziś można coś przewidzieć. Zapewne kuchnia nie będzie częścią zamkniętą i odizolowaną od reszty pomieszczeń. Coraz częściej wśród propozycji projektantów da się zauważać, że wysuwa się ona na pierwszy plan. Na szczeołna uwage zasługuje materiał. z [...]
